MOHAMMED FAIZAN MEHMOOD

WEB DEVELOPER

7+ years stated in resume

PROFILE

Solution-oriented web developer with experience building and maintaining websites and web applications. Resume highlights web development, performance and usability work, AI data annotation, LLM response evaluation, transcription, and technical documentation.

CORE CAPABILITIES

- Build and maintain websites and web applications across freelance and organizational roles.
- Improve features, performance, and usability in collaboration with development teams.
- Apply careful quality review to AI data annotation, LLM response evaluation, transcription, and documentation.

EXPERIENCE

Delloitte Global Solutions | Web Developer January 2023 - Present

- Oversee and maintain core web services and websites for business operations.
- Collaborate with development teams to improve features and optimize performance.
- Evaluate LLM responses; perform AI data annotation, transcription, and quality verification.

Hinduja Global Solutions | Junior Web Developer June 2021 - December 2022

- Built and maintained client websites and created and tested web applications for performance and usability.
- Annotated text and image datasets; reviewed LLM responses and transcribed audio and text.

Freelance Web Developer January 2019 - May 2021

- Developed websites, created email marketing campaigns, and worked on AI data annotation, LLM review, transcription, and documentation.
